

The International Organization of Securities Commissions (IOSCO) is celebrating the sixth annual World Investor Week (WIW) from 3 to 9 October 2022. The WIW aims to raise awareness of the importance of investor education and protection.

The IOSCO WIW campaign in 2022 is based on two themes: 1) investor resilience, and 2) sustainable finance. In this regard, the WIW is pleased to host a *global webinar on Sustainable Finance and Investor Education and Protection*, which is open to regulators, members of the industry, and the general public. This global webinar will cover the theme of sustainable finance and investor education by taking advantage of the findings, tools and key messages of the recently published IOSCO report [Retail Investor Education in the Context of Sustainable Finance Markets and Products](#).

The report recognizes the importance of retail investor education on sustainable finance amidst a vast and rapid increase of sustainability-related financial products, thereby highlighting some approaches that regulators could consider in this scenario. Besides, IOSCO has also acknowledged that financial education in this area encompasses education for industry participants, including financial advisors.

In this context, the *Global Webinar on Sustainable Finance and Investor Education and Protection* will discuss the findings and tools of the IOSCO report, but it will also consider the views of other participants that can strengthen the protection and education of investors in this field.

Moderator:	<ul style="list-style-type: none"> • Pasquale Munafò, <i>Chairman of the IOSCO Committee on Retail Investors (Committee 8)</i>, Senior Finance Professional, Commissione Nazionale per le Società e la Borsa (CONSOB), Italy.
